Hi, I'm Rana Rabees, a Post Modern Full Stack Applications
Developer and Architect at FDcept Need help to build Blazingly Fast,
Secure and Interactive websites? Get FREE consultation now!.
Rawalpindi District, Punjab, Pakistan

Summary

Who Am I? ==>

Hi, I'm Rana Rabees, a Senior Fullstack Developer. I am a highly
ambitious, self-motivated, and driven Developer, Coder and
Programmer working for ** FDCETP **.

I'm passionate about creating things and have expertise in full stack
development Jam Stack development , AI, Metaverse, Blockchain,
Web3.0, and IoT. I'm always seeking new experiences and love to
keep learning new things.

My love for creation began at an early age, where I would often
be found sketching and drawing. Though I haven't had much
time for sketching in the past two years due to my studies in
software development, I have found that my passion for design has
transformed into a digital form.

My interest in web development began when I discovered my love
for designing websites and creating intuitive user experiences.
Since then, I have been developing modern and clean websites
using Next.js, React.js, Node.js and so many others Languages,
Frameworks, Libraries Remaining Now. I am also well-versed in
object-oriented programming, data structures and algorithms, and
continuously strive to improve my knowledge in the field of user
experience design .

I have a wide range of hobbies and passions that keep me busy.
From Reading/Creating new blogs, Making Dynamic Websites,
Building Mobile Apps, Creating Games, Making YouTube videos of
new Technologies.

What am I experienced in? ==>

* AI Visionary: As a trailblazer in AI, I have harnessed its potential to drive efficiency and intelligence across diverse industries. From predictive analytics to machine learning, I have led initiatives that unlock data-driven insights.

* Metaverse Architect: My expertise extends to the Metaverse, where I've envisioned and crafted immersive experiences that bridge virtual and real worlds, revolutionizing engagement and interaction.

* Blockchain Maven: I've been at the forefront of blockchain adoption, leveraging its secure and decentralized nature to architect solutions that transform industries and empower transparent ecosystems.

* Web3.0 Enthusiast: With a deep understanding of Web3.0, I've facilitated the shift toward decentralized and user-centric online experiences, leveraging the power of blockchain and beyond.

I believe that you should never stop growing and that's what I strive to do, I have a passion for technology and a desire to always push the limits of what is possible.

Thank you for taking the time to get to know me a little better. If you have any questions or are interested in working together, please don't hesitate to reach out.

Experience

FDcetp
Post Modern Full Stack Applications Developer and Architect
January 2023 - Present (1 year)
Silicon Valley, California, United States

Hi everyone,

I started my role as a Post Modern Full Stack Applications Developer and Architect at FDcept,

I've been really enjoying my time here so far. The team is great, the work is challenging and rewarding, and I'm learning a lot. I've already had the opportunity to work on some really cool projects, and I'm excited to see what the future holds.
In the past few months, I've been focused on developing our new software platform.

I've been working with a team of engineers to design, implement, and test the new platform.

We're making great progress, and I'm confident that the new platform will be a valuable asset to our company.

I'm also excited to be mentoring some of our junior developers. I've been sharing my knowledge and experience with them, and I'm really enjoying helping them grow in their careers.
Overall, I'm really happy with my role at ** FDcept**.

I'm surrounded by talented people, I'm working on interesting projects, and I'm constantly learning new things. I'm looking forward to continuing to grow and develop in my role here.

Thanks,
(*- Rana^Rabees -*)

NWOIT
Full-stack | Jam-stack Developer
January 2017 - Present (7 years)
